Re: Consent for Access Eureka Townsite Lot 1, Lot 2, Lot 3, Lot 4, Lot 5
and Lot 6 (the "Property").

Dear Mr. Sisk,

Enclosed please find an executed copy of Sunnyside Gold Corporation's ("Sunnyside") Consent for Access to the Property (the "Consent"). Sunnyside has agreed to provide the United States Environmental Protection Agency ("EPA") access to the Property, as more fully defined in the Consent, solely to allow EPA to perform the sampling activities specified in the Consent (defined in the Consent as the "Work").

Please be advised that existing conditions may present hazards for individuals accessing the Property to conduct the Work, and appropriate precautions should be taken by EPA and others accessing the property under the Consent. Sunnyside makes no representations or warranties that conditions at the property are safe or suitable for access or for conducting the Work, nor any other warranties or representations regarding the Property. Further, EPA's access to the Property is granted on an "AS IS" and "WITH ALL FAULTS" basis.

Sincerely,

Nathan Longenecker
VP and General Counsel

NML/pfo

CONSENT FOR ACCESS TO PROPERTY

RIGHT OF ENTRY TO PREMISES:

The Property Owner (the Grantor) consents to and authorizes the United States Environmental Protection Agency (EPA) and its authorized representatives and their contractors (collectively the Grantee), to enter and perform certain environmental sampling activities upon the following premises:

Owner's Name: Sunnyside Gold Corporation

Property Covered By this Consent (Property): (property description, parcel ID or mine claim)

Eureka Townsite Lot 1, Lot 2, Lot 3, Lot 4, Lot 5 and Lot 6.
(See attached plat map)

PURPOSE OF RESPONSE ACTIVITIES:

The EPA is requesting access to collect water quality, flow measurements, and collect sediment and soil samples to determine contaminant concentrations in streambed sediments, determine metals contamination on waste deposits and tailings piles areas, and to determine the nature and extent of contamination near the Animas River and tributaries at your property, hereinafter generally referred to as "the Work". The Work may include any of the following:

- Access the sample locations by foot to collect water samples, pore water samples, flow measurements and collected soil and sediment samples.
- Access select locations by a wheeled, standard size backhoe for digging test pits and collecting soil and sediment samples at the surface (zero to six inches) and one-foot depth intervals to groundwater.
- Conduct sampling events during the high flow period (spring runoff) and in the low flow period (fall/winter) to collect samples and flow measurements.

ENVIRONMENTAL RESPONSE ACTIVITIES:

By signing this Consent for Access, the Property Owner is granting EPA, its employees, its representatives including the United States Geological Survey (USGS), United States Fish & Wildlife Service (USFWS), Bureau of Land Management (BLM), the Colorado Department of Public Health and Environment (CDHPE) and the Colorado Division of Reclamation, Mining & Safety (CDRMS), and their contractors the non-exclusive right to enter the Property, at all reasonable times and with prior notice, for the sole purpose of conducting the Work described above. This consent for access (Consent) shall remain in effect for a period of one (1) year from the date of signature of this Consent.

AGREEMENT NOT TO INTERFERE

The Property Owner agrees to not interfere or tamper with any of the water quality and sediment sampling activities, or the equipment used to perform the sampling activities.

This written permission is given voluntarily with knowledge of the right to refuse and without compulsion or promises of any kind. The Property Owner understands that if there is any damage by the Work conducted by EPA or their authorized representatives, contractors, or sub-contractors then EPA or authorized representatives, contractors or sub-contractors shall promptly repair such damage to the extent practicable.

LIABILITY

By granting this access to and use of the Property for the Work, the Property Owner assumes no responsibility or liability for any claims, losses, damages, costs, expenses or lawsuits which may be asserted or brought against or incurred by the Property Owner from or by third parties with respect to any acts or omissions in or related to the Work or any other activity on or about the Property as authorized under this Consent for Access.

INSURANCE

EPA shall require its general contractor and subcontractors to secure, pay for and maintain during the term of this Consent the following insurance in the following minimum amounts, with respect to claims and liabilities arising from any activities on the Property by such general contractor, subcontractors or anyone directly or indirectly employed by them exercising the access rights granted by this Consent:

Commercial general liability insurance (including coverage against bodily injury or death, property damage and contractual liability) in an amount not less than one million dollars (\$1,000,000) per occurrence and two million dollars (\$2,000,000) in the aggregate.

All of the policies for the foregoing insurance shall be with companies licensed in the State of Colorado and reasonably acceptable to the Property Owner, shall name the Property Owner as an additional insured and shall provide that the Property Owner shall be given ten (10) days' prior written notice of any alteration or termination of coverage. EPA shall promptly furnish the Property Owner with evidence of any of the foregoing insurance policies upon the Property Owner's request.
